1. Registration Page (With approval pending notification)

A screenshot of a web browser showing the registration page of the 'Smart Ticket System'. The browser's address bar displays 'http://localhost:4200/login'. The page has a dark blue gradient background. In the center, there is a white registration form. At the top of the form is the 'Smart Ticket System' logo (a blue circle with 'ST') and the text 'Create an account to get started with ticket management.' Below this are two buttons: 'Sign In' and 'Register'. The form contains three input fields: 'Full Name' with the value 'Rakesh', 'Email' with the value 'rakesh@system.com', and 'Password' with masked characters. A blue 'Create Account' button is at the bottom of the form. Below the button, a small message states: 'Your account will be pending approval from an administrator.'

A screenshot of the same 'Smart Ticket System' registration page, but after a successful registration. The browser address bar remains 'http://localhost:4200/login'. The form fields now contain 'John Doe' for 'Full Name' and 'you@example.com' for 'Email'. The 'Password' field is masked. A green success message box appears above the 'Create Account' button, stating: 'Registration successful! Your account is pending approval from an administrator.' The 'Create Account' button is still present, and the message at the bottom of the form remains: 'Your account will be pending approval from an administrator.'

2. Login Page

The screenshot shows a web browser window with the address bar displaying `http://localhost:4200/login`. The page has a dark blue gradient background. In the center is a white login card for the "Smart Ticket System". The card contains a logo with the letters "ST", a subtitle "Sign in to manage and track your support tickets.", and two buttons: "Sign In" and "Register". Below these are input fields for "Email" (containing `manager@system.com`) and "Password" (masked with dots). A large blue "Sign In" button is at the bottom of the card, followed by a small note: "Use the credentials provided by your administrator to access the system."

8. Deactivating a Priority

The screenshot shows the 'Add New Priority' form with fields for 'Priority Name' (e.g., High) and 'Priority Level' (1, 2, 3...). Below the form is a table titled 'All Priorities (6)' with columns: ID, NAME, STATUS, and ACTIONS. A modal dialog is open in the center, asking 'Are you sure you want to deactivate this priority?' with 'Cancel' and 'OK' buttons. The dialog also includes a checkbox for 'Don't show this again'.

ID	NAME	STATUS	ACTIONS
#4	Critical	Active	Deactivate
#3	High	Active	Activate
#6	Important	Active	Deactivate
#1	Low	Active	Deactivate
#2	Medium	Active	Deactivate
#5	Urgent	Active	Deactivate

9. Adding & Activating New SLA Policy

The screenshot shows the 'SLA Policies' management page. It includes a form to 'Add New SLA Policy' with fields for 'SLA Policy Name' (Standard SLA) and 'Resolution Hours' (60). Below the form is a table titled 'All SLA Policies (5)' with columns: ID, NAME, RESOLUTION HOURS, STATUS, and ACTIONS. The table lists five policies: Critical SLA (8 hours, Active), High SLA (24 hours, Active), Medium SLA (48 hours, Active), Low SLA (72 hours, Active), and Normal SLA (96 hours, Inactive).

ID	NAME	RESOLUTION HOURS	STATUS	ACTIONS
#4	Critical SLA	8 hours	Active	Deactivate
#3	High SLA	24 hours	Active	Deactivate
#2	Medium SLA	48 hours	Active	Deactivate
#1	Low SLA	72 hours	Active	Deactivate
#5	Normal SLA	96 hours	Inactive	Activate

11. Assign Role to New User

The screenshot shows the 'User Management' page with a table of 7 users. The last user, Rakesh (#1003), has a dropdown menu open for selecting a role. The dropdown options are: Select Role, Support Manager (highlighted), Support Agent, and End User. The table columns are USER ID, EMAIL, NAME, ROLE, and ACTIONS.

USER ID	EMAIL	NAME	ROLE	ACTIONS
#1	admin@system.com	System Admin	—	Approved
#2	manager@system.com	Support Manager	—	Approved
#3	agent@system.com	Support Agent	—	Approved
#4	user@system.com	End User	—	Approved
#5	agent2@system.com	Support Agent 2	—	Approved
#1002	himmish@system.com	Himmish A	—	Approved
#1003	rakesh@system.com	Rakesh	—	✓ Approve ✗ Reject

The screenshot shows the 'User Management' page with a confirmation dialog box in the center. The dialog box contains the text: 'localhost:4200 says Are you sure you want to approve rakesh@system.com with the selected role?'. Below the text are two buttons: 'Cancel' and 'OK'. The background is dimmed, showing the same table of users as the previous screenshot. The role for Rakesh is now 'Support Agent'.

USER ID	EMAIL	NAME	ROLE	ACTIONS
#1	admin@system.com	System Admin	—	Approved
#2	manager@system.com	Support Manager	—	Approved
#3	agent@system.com	Support Agent	—	Approved
#4	user@system.com	End User	—	Approved
#5	agent2@system.com	Support Agent 2	—	Approved
#1002	himmish@system.com	Himmish A	—	Approved
#1003	rakesh@system.com	Rakesh	Support Agent	✓ Approve ✗ Reject

22. Ticket Details (With Status Update)

The "Ticket Details" page for Ticket #1016, titled "Laptop Overheating", displays ticket information and a comment history. The ticket information section shows the status as "Assigned", priority as "Medium", and category as "Hardware". It is assigned to a "Support Agent". The "UPDATE STATUS" dropdown menu is open, showing "InProgress" as the selected option. The "Comments" section shows two comments: one from the "End User" stating "My Device seems to overheat and shut down" and another from the "Support Agent" stating "Kindly bring your device to the service desk". There is a text input field for adding a new comment.
